

## Hole-some Feet

**Croc's** rubberised, holey footwear have been criticised for their less-than-aesthetically-pleasing designs but we say, comfort over style any time! While the newest crocs still have some holes in them, they also rock the comfort and style meter by rolling out in the latest mary janes for women in versatile shades of ruby red, chocolate, grape, black and even peacock!

**Available at all Croc's outlets.
